To Whom It May Concern:

DCM Construction has constructed many projects engineered by DLB Associates over the past few years, which include Applebee's Restaurant, Houlihan's Restaurant and the Shannon Rose to name a few.

We find that DCM acts professionally and is easy to do business with. They are good communicators and work well with the design team during design and construction phases.

We recommend DCM as being one of the better contractors we have worked with for these types of projects.

Should you have any questions, please do not hesitate to contact this office.

Very truly yours,

DLB ASSOCIATES
