

Foodservice Design, Equipment and Supplies.

Monday, February 16th, 2009

Dimension Construction
241 Main Street
West Creek, NJ 08092

To whom it may concern,

We have had the pleasure of working with Dimension construction on dozens of restaurant projects and I can honestly say they are one of the top general contractors I have worked with in my thirty years of selling commercial foodservice packages. Brian has some of the best supers running his projects which results in better communication and smoother installations. Additionally, Dimension Construction's jobsites are always clean and ready to receive kitchen equipment. Finally, Dimension Construction fosters and encourages a sense of teamwork between the various subs and suppliers. Dimension Construction knows that ultimately, we all work for the owner and want the job done as professionally and smoothly as possible to reflect well on all parties involved.

Sincerely,

A handwritten signature in black ink, appearing to read "Harry X. Gallins", written over a horizontal line.
